

Robert Taylor

NACE Coating Inspector Level 2– Certified #58555

SSPC C3 -Certified

To Whom It May Concern,

I am seeking a position with a company in which my experience, training and certifications Coating Inspection would be an asset.

My most recent experience is working in/on Petroleum Storage Tanks, Petroleum Terminals and in Fabrication Shops.

I am a Level 2 NACE Coatings Inspector, SSPC C3 Certified, A Certified Pipeline Welding Inspector and a Certified Hydrostatic Testing Inspector. I have 3 Osha Certifications, A TWIC Card, NACE Water And Wastewater Corrosion Control, Safe Driver Certification and am trained In First Aid/CPR. I have current NCCER Coatings Related Operator Qualifications.

I would like to be considered for positions where a "Local Hire" is a requirement wherever that might be. I am mobile and ready to travel to where we need to go to get started on our next project.

As you can see by my resume. I have never been afraid to take on new challenge, even if it was something not remotely connected to something I had done before. In each case I have worked hard to master the skills required to be a success.

My ability to adapt to new and changing situations as well as being an accomplished decision maker, independent thinker and a solid team member have made me an asset to any project I have been a part of.

I have extensive management and Quality Assurance experience. I have been successful by understanding the value of building and managing a team that works well together to get the job done right.

I am very proficient on computers including Microsoft Office and with the tools required for inspection.

I would welcome the opportunity to learn more about your organization, this particular position as well as any other position that you feel I am suited for.

I appreciate your consideration and look forward to the opportunity to discuss the opportunities at your earliest convenience.

Sincerely,

Robert Taylor
